--------------------------- **Profile Info** ---------------------------

Gender :	male
DOB :	03 March, 2001
Address :	402, Shree Shyam Apartment, Near Hanuman Mandir, Zero Mile (Gol Chakkar), Bhagalpur, Bihar-812003

--------------------------- **Skills** ---------------------------

- HTML5
- CSS3
- JavaScript
- MySQL
- React
- NodeJS
- Python
- C++

---------- **Interests** ----------

Technology and Innovation   Web Development and Design   Data Analysis and Visualization

---------- **Languages** ----------

English   Hindi   French

--------------------------- **Education** ---------------------------

B. Tech In CSE Core(8.37)

VIT University, Vellore Institute of Technology

Chennai, TN, IN

SEP 2021 - PRESENT

Senior Secondary In PCM(78.4%)

VIT University, Vellore Institute of Technology

Andheri, MH, IN

MAY 2018 - MAR 2020

Secondary School In 10th(93.8%)

VIT University, Vellore Institute of Technology

Thane, MH, IN

APR 2013 - MAR 2018

--------------------------- **Honors** ---------------------------

1st Runner-Up

Smart India Hackathon (SIH)   2022

Developed an Arduino-based project to filter grey water, incorporating multiple sensors to assess water purity. Implemented an integrated system to determine whether the water is suitable for drinking or other purposes, showcasing problem-solving skills, technical expertise, and innovative thinking.

Finalist

ARAI Technovuus   2022

Made an AI-based unsupervised learning model to automate a physical mechanism that effectively reduces glare from headlights. The model's implementation demonstrates promising potential for addressing the issue of headlight glare in a smart and efficient manner.

--------------------------- **Strengths** ---------------------------

Leadership   Problem-Solving Skills   Technical Proficiency

--------------------------- **Declaration** ---------------------------

I affirm the accuracy of the information provided and commit to utilizing my skills and experience for the organization's success and my professional growth.
